Subject: Update on John Davis & Sierra Club Representation

Interesting day today. It all went well for the most part, with the usual folks complaining about public comment. But, again, it was the SAME folks with the SAME complaints.

One interesting thing to note and worth passing on to your colleagues: Kathy Knight, a frequent public commenter who has long been “the” representative for the Sierra Club’s Marina-Airport sub chapter, actually took her public comment time to apologize for John Davis’s actions (booing Shelley from the audience when she left) and stated that his opinions did NOT reflect the views of the Marina-Airport sub chapter. She did not name him, but he is the only person to whom that would apply.

After the meeting, she told me that the chapter kicked him out, so he no longer represents them. She was very apologetic.

He did not show up today and that likely might be the reason.

Scott
